## PROFESSIONAL SUMMARY

Backend Developer with 6 years of hands-on experience designing and developing scalable web applications using Laravel, PHP, and MySQL. Proven track record of building secure RESTful APIs, architecting modular systems, and integrating third-party services in high-impact products. Strong foundation in full software development lifecycle, with additional experience in Vue.js, Node.js, AWS, and microservices. Strong expertise in Laravel-based SaaS products and internal tools. Adept at collaborating in agile teams and delivering robust backend solutions tailored to business goals.

## TECHNICAL SKILLS

- Languages & Frameworks: PHP, Laravel, CodeIgniter, Node.js, Vue.js, JavaScript, HTML, CSS, React.js, Bootstrap
- Databases & Search: MySQL, MariaDB, MongoDB, SOLR
- Cloud & DevOps: AWS Lambda, SQS, CloudWatch, API Gateway, Nginx, Docker
- AI & Automation: Generative AI, Prompt Engineering, LLM Integration, Web Scraping
- Architecture: Microservices, REST API Development, Serverless Applications, Third-Party APIs Integration
- Tools: Git, GitHub, Jira, Agile, CI/CD, ATS Systems

## KEY PROJECTS

### ATS – Application Tracking System

**Tech Stack:** Laravel, MySQL, Node.js, REST APIs, Microservices, SOLR, AWS Lambda, SQS, CloudWatch, Generative AI

- Designed and implemented core modules, including:
  - **Assessment Integration:** Integrated third-party APIs (e.g., Codility) for coding assessments.
  - **Resume Parser:** Converted unstructured resume data into a structured format for ATS compatibility.
  - **Job Aggregator:** Aggregated job listings from multiple external sources via scheduled tasks.
  - **Company-Type Filter:** Developed classifier logic to differentiate product vs. service companies.
- Led API integrations, collaborated on DB schema design, and helped architect a scalable microservice-based backend.

### AISUME – AI-Powered Resume Intelligence Platform

**Tech Stack:** Node.js, React.js, MongoDB, LLM

**URL:** <https://aisume.in/>

- Designed and developed a SaaS platform that analyzes resumes using LLMs, providing job match scores, ATS compliance checks, AI-generated cover letters, and personalized career suggestions.

## PROFESSIONAL EXPERIENCE

**Member of Technical Staff @ Aissel Technologies** | June 2025 – Present

**Tech Stack:** Laravel, PHP, MySQL, MariaDB, PHPMyAdmin, Laravel API Platform, GenAI, Tailwind CSS

**Work Profile:** Integrating GenAI, R&D, Refactor code for readability, maintainability and performance, Bug fixing.

**Software Developer @ Uplers** | Jan 2022 – May 2025

**Tech Stack:** Laravel, PHP, MySQL, React.js, Node.js, AWS, GenAI, Web Scraping, Microservices, MongoDB, Express.js, Python

**Work Profile:**

- Solely initiated, designed, and implemented multiple backend modules and microservices from scratch using Laravel, MySQL, Node.js, and MongoDB.
- Handled full SDLC, including requirements gathering, architecture, development, testing, and deployment.
- Mentored junior developers working on the same modules. Collaborated with frontend/React.js teams.

**Software Developer @ LadyBirdWeb Solution** | Sept 2020 – Jan 2022

**Tech Stack:** Laravel, PHP, Vue.js, MySQL, API

**Work Profile:** Developed modular backend features and RESTful APIs in Laravel. Integrated frontend components with Vue.js and worked on cross-team collaboration.

Contributed to API design, database optimization, and user-facing features.

**Software Developer @ CasperIndia** | Aug 2019 – Jul 2020

**Tech Stack:** PHP, Laravel, CodeIgniter, JS, jQuery, HTML, CSS

**Work Profile:** Maintained and enhanced legacy Laravel and CodeIgniter applications. Refactored existing code to improve performance and security.

## SnipURL

- Full-stack URL shortener with real-time analytics, built with Node.js (backend) and React (frontend).
- Tracks user interactions, IP addresses, and link performance.

## Password Stack – Secure Vault System

- Built RESTful APIs using Laravel for managing encrypted password vaults, tagging, categories, and controlled sharing.
- Integrated strong encryption protocols and a secure password generator.
- Implemented Google OAuth sign-up and email notifications for sharing and alerts.

## Shop Management System

**Tech Stack:** Laravel, MySQL, HTML, CSS, Bootstrap

- Designed and developed an end-to-end shop management solution for small to mid-sized businesses.
- Enabled service tracking, multi-user access, customer billing, and monthly payment report generation.

## OPEN SOURCE CONTRIBUTION

---

- <https://packagist.org/packages/saurabhshukla-developer/laravel-ai-chatbot>
- <https://www.npmjs.com/package/say-it-now>

## ACHIEVEMENTS

---

- 1st Place – IIT Roorkee Techfest (Junkyard War)
- 1st Place – IIT Roorkee Techfest (Robotics Competition)
- 2nd Place – IIT Bombay Techfest (Big Idea Competition)
- Top 20 – V-Guard Big Idea Competition (India)

## EDUCATION

---

- B.Tech in Computer Science & Engineering  
GITS, Udaipur | 2019
- Diploma in Computer Science  
Swami Vivekanand Subharti University | 2015
- Higher Secondary (12th)  
MG Inter College, Gorakhpur | 2013
- High School (10th)  
MG Inter College, Gorakhpur | 2011

## CERTIFICATIONS

---

- Workshop – Generative AI (Artifacia)
- Workshop – Cloud Computing (REAN Cloud)
- JavaScript Certification – Udemy
- jQuery Certification – Udemy
- Digital Marketing – Google Unlocked
- Summer Training – Oracle Java – hosted by NIIT Centre.

## HOBBIES

---

- Travelling & Photography
- Learning new things
- Interacting with people
